#### IT IS YOUR RESPONSIBILITY TO:

• Observe all governing codes and ordinances.

• Comply with the installation specifications.

• Properly install the disposer.

• Make sure you have everything necessary for proper installation.

• Contact a qualified installer to insure that the electrical and plumbing installations meet all national and local codes.

#### GROUNING INSTRUCTIONS

For permanently connected disposers:

El triturador debe estar conectado a un sistema de cableado permanente para conexión a tierra, o debe ser puesta como un circuito eléctrico directo con cableado directo:

• This disposer is intended to be direct-wired to the electrical supply.

• Remove fuse (or open the circuit breaker) before connecting disposer to circuit.

• If junction box is used, connect the junction box to the switch on a separate 15 or 20 Amp, 115 Volt circuit with the appropriate cable (Use 14 gauge wire with 15 Amp circuit, and 12 gauge wire with 20 Amp circuit).

• Si se utiliza una caja de conexión, conectela al interruptor en un circuito independiente de 15 ó 20 amperios, con cable calibre 14 con el circuito de 15 amperios y cable calibre 12 con el circuito de 20 amperios.

• Si vous utilisez une boîte de jonction, raccorder à l'interrupteur sur un circuit distinct de 15 ou 20 ampères, avec un fil de calibre 14 avec un circuit de 15 ampères et un fil de calibre 12 avec un circuit de 20 ampères.

• Si vous installez une prise directe pour brancher d'autres petits appareils ménagers, ajouter un interrupteur mural dans le circuit à prise de courant »

• Assegurese de que se cumplen los siguientes requisitos para los trituradores permanentes:

• La alimentación eléctrica debe ser conectada a un sistema de cableado permanente para conexión a tierra o debe ser puesta como un circuito eléctrico directo con cableado directo:

• Este triturador está diseñado para ser conectado directamente a la red eléctrica.

• Retirar el fusible (o abrir el disyuntor) antes de conectar el triturador al circuito.

• Si el disyuntor es de tipo de conexión directa:

• Para todos los trituradores de conexión a tierra:

• Este triturador debe estar conectado a tierra para reducir el riesgo de descarga eléctrica en el caso de mal funcionamiento o avería. La conexión a tierra proporciona una resistencia mínima para la descarga eléctrica. Este triturador está equipado con un cable que tiene un conductor para la conexión a tierra del equipo y un enchufe con conexión a tierra. El enchufe se debe conectar a un tomacorriente que esté adecuadamente instalado y que tenga una conexión a tierra. La ficha debe estar bien conectada a la tierra del tomacorriente y debe haber una conexión a tierra segura.

• Este disposer requiere una switch marked "off" position (wired to disconnect all ungrounded supply conductors) installed within sight of the disposer sink opening. (1 hp)

• No attach ground wire to gas supply pipe.

• Do not reconnect electrical current at main service panel until proper grounds are installed.

• Avant de raccorder le broyeur à l'interrupteur, assurez-

se que toutes les exigences suivantes sont satisfaites à l'étape 19 pour connecter le tritardor à l'interrupteur :

• Ce disposer est conçu pour être câblé directement à l'alimentation électrique.

• Avant de raccorder le broyeur au circuit, retirer le fusible (ou ouvrir le disyuntor).

• Si vous utilisez une boîte de jonction, raccorder à l'interrupteur sur un circuit distinct de 15 ou 20 ampères, avec un fil de calibre 14 avec un circuit de 15 ampères et un fil de calibre 12 avec un circuit de 20 ampères.

• Si vous installez une prise directe pour brancher d'autres petits appareils ménagers, ajouter un interrupteur mural dans le circuit à prise de courant »

## ENGLISH USE & CARE GUIDE

**YOUR SAFETY AND THE SAFETY OF OTHERS IS VERY IMPORTANT.**  
We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

**WARNING** This is the safety alert symbol. It is used to alert you to potential physical injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

**AVERTISSEMENT** Indicates a hazardous situation which, if not avoided, could result in death or serious injury.

**NOTICE** Is used to address practices not related to physical injury.

## INSTRUCTIONS PERTAINING TO RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS

### IMPORTANT SAFETY INSTRUCTIONS

**WARNING** Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the disposer is properly grounded. If the plug provided with the disposer does not fit the outlet, do not modify the plug or attempt to insert it into the outlet - have a proper outlet installed by a qualified electrician.

**GROUNDING INSTRUCTIONS**  
For all grounded, cord-connected disposers:  
This disposer must be grounded to reduce the risk of electric shock in the event of a malfunction or breakdown. Grounding provides a path of least resistance for electric current. This disposer is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.

**For permanently connected disposers:**  
This disposer must be connected to a grounded, metal, permanent wiring system; or an equipment-grounding conductor must be run with the circuit conductors and connected to the equipment-grounding terminal or lead on the disposer.

**NOTICE**  
• Do not use plumber's putty on any other disposer connection other than sink flange. Do not use thread sealants or pipe dope. These may harm disposer and cause property damage.

• To prevent leaks, do not pull or bend discharge tube to drain trap.

**WARNING** When using electric appliances, basic precautions are always to be followed, including:

- Read all instructions before using the appliance.
- To reduce the risk of injury, close supervision is required when an appliance is used near children.
- Do not put fingers or hands into a waste disposer.
- Turn the power switch to the off position before attempting to clear a jam; removing an object from the disposer or pressing reset button.
- Do not dispose of the following in the disposer: paints, solvents, household cleaners and chemicals, automotive fluids, plastic wrap.
- When attempting to loosen a jam in a waste disposer, use the self-service wrenchette.
- When attempting to remove objects from a waste disposer, use the self-service wrenchette.
- FIRE HAZARD: Do not store flammable items such as rags, paper or aerosol cans near disposer. Do not store or use gasoline or other flammable vapors and liquids in vicinity of disposer.
- LEAK HAZARD: Regularly inspect disposer and plumbing fittings for leaks, which can cause property damage and could result in personal injury.
- When not operating a disposer, leave the stopper in place to reduce the risk of objects falling into the disposer.
