

| OAC 2000 SPARE PARTS LIST |                                          |          |
|---------------------------|------------------------------------------|----------|
| NO.                       | Name                                     | Quantity |
| 1                         | Water tank coaming                       | 1        |
| 2                         | Terminal block                           | 1        |
| 3                         | Water tray supporting plate              | 1        |
| 4                         | Front board                              | 1        |
| 5                         | Water tank                               | 1        |
| 6                         | Wheels                                   | 4        |
| 7                         | Bottom plate                             | 1        |
| 8                         | Evaporator & Condenser                   | 1        |
| 9                         | Evaporator fan clapboard                 | 1        |
| 10                        | Evaporator fan motor                     | 1        |
| 11                        | Air filter                               | 1        |
| 12                        | Cold air hose                            | 1        |
| 13                        | Back board                               | 1        |
| 14                        | Rotary switch                            | 1        |
| 15                        | Drainage hose                            | 1        |
| 16                        | Compressor                               | 1        |
| 17                        | Condenser fan blade                      | 1        |
| 18                        | Compressor rubber mat                    | 3        |
| 19                        | Condenser fan motor                      | 1        |
| 20                        | Condenser and Evaporator fan capacitance | 2        |
| 21                        | Fan exhaust bracket                      | 1        |
| 22                        | Machine shell                            | 1        |
| 23                        | Compressor capacitance                   | 1        |
| 24                        | Water tank pad plate                     | 1        |
| 25                        | Water tray                               | 1        |
| 26                        | Handle                                   | 2        |
| 27                        | Power cord and plug                      | 1        |
| 28                        | Power cord buckle                        | 1        |
